HONGKONG, TUESDAY, SEPTEMBER 10, 1889. Tus history of the rise and fall of the Rawang Tin Mining Company, as it is being unfolded in the pages of our Singapore contemporaries, reveals such a recklessness of speculation and such a general rottenness of business as are seldom found aven in these Eastern lands where the gambling spirit is so rampant. In the beginning pi this year, but more especially during the months of February and March, there existed in Singapore, as most of our readers will remember, a great mining boom. That the Malay Peninsula was one vast gold or tin, just waiting the in which a friend had a joint interest. On formation of companies to extract its wealth, seemed to be the general feeling. Friday morning the 23rd instant the friend The contagion spread quickly to Hong. came to me and asked about the tin comkong-by telegrams, by letters, and pany, and after some conversation insisted by big financiers who came here from upon selling these shares. These shares

THE other day we reported that a great fire was raging in Foochow. The Echo of 7th inst. gives the following particulars about it :- Last Saturday, at midnight, a very destructive fire took place over the bridge, at a place called Juchiau, and we regret to learn that over 900 houses were destroyed and that about 150 were pulled down to provent its extending. The fire originated in a music master's house, through carelessness. A child of about one year, and a boy of eighteen were burnt to death. The loss of proporty is computed at over \$150,000. It is much to be regretted that such a calamity should have happened in such hard times, and we sincerely hope that it will be a long time before we have again to record in fact resulted in quotations declining. a tire of such magnitude.

AT a meeting of members of the Victoria Recreation Club, yesterday evening (Mr J. F. Holliday presiding), certain new rules drawn up by the committee were submitted mitting the rules explained that the committee did not wish to arrogate fresh powers to themselves, but they thought the scope of the Club had increased so much that very often small questions arose which might conveniently be dealt with by them instead of by a general meeting. The proposed new rules were then discussed and passed with a few amendments. TWO MILES A MINUTE. Baltimore, August 7 .- On a two-mile circular track the startling speed of two miles a minute was this afternoon maintained for about ten miles by a three-ton motor of the Electric Automatic Transit Company of Baltimore. This speed equals three miles per minute on a straight track. David G. Wa ms, the inventor, conducted the experiments. The company will build at once a five-mile circular truck on Long Island to demonstrate the practicability of the electric passenger system, and also the automatic system which was tried to-day, and is intended only for light express packages, mails and newspapers. Company, No. 504, Queen's Road Central. It is the first Chinese Newspaper ever

issued under purely native direction. The chief support of the paper is of course derived from the native community amongst whom also are to be found the guarantors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing a large and ever-increasing circulation. The advantages offered to ad vertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements. Bubscription orders for the above may be
